

BRITTNEY TRIMMING: COUNCILLOR CANDIDATE

Hi there! My name is Brittney, and I am a third-year student studying in Occupational and Physical Therapist Assistant! When I am not on campus, you may find me participating in activities or clubs either on-campus or off-campus. I have a strong passion for being an advocate for the deaf or hard of hearing community and disabilities! It is not just that I advocate for; I also support mental health, background, gender, and sexuality. It will be my third term running for the student council. I do believe I have so many experiences of being such a strong advocate. I care about sharing my beliefs and opinions to ensure our campus gives us the right education we need. This year I want to increase our mental health awareness and know what services students need on campus or even off-campus. Many students find that I am passionate, caring, supportive, and an out-seeker of being on campus. I do take the time to express my voice and concern about impacting our campus and student bodies. I like to research and find other tools to expand my thoughts and beliefs towards significant student education changes in my free time.

It is not just education; I look deep. I will try to find the best resource to help individuals facing a challenging situation such as financial problems, looking for available services, or even organizations can help resolve their issue. My goal this year to enhance more of my advocacy skills to support different backgrounds or mental health. On-campus I want to fight for affordability for textbooks, supplies, and even tuition. I do believe our education needs to be affordable to continue our education. As a councillor, I do have many ideas of what events we should have related to mental health, education, or even campus services booth. Students find me approachable when they have event ideas or concerns regarding their education, program, or even services. Suppose you have any questions or want more information about me. Do feel free to message me or email me. I will answer with the best ability I can. Let our voices be heard!!
