Hello there! My name is Felicity Arndt, and I am in my first year of the elementary education degree. I've been in the Student Council for one year and I would love to continue to facilitate change and be a face for students around the school. I try to involve myself around the school and the red deer community as much as possible. I'm a part of the student ambassadors program and I worked for the SA as a part of their street team. I'm a big part of the theatre community, I love to be involved with improv and I often volunteer with CAT studios. I love talking with different people from around the school and learning about their points of views.

My goal for the upcoming year is to help bring more representation for diversity on campus. I will work my hardest to be a voice for the student body. I'm always excited to get input from my fellow students!

FELICITY ARNDT
