Hello! My name is Motesolaoluwa Yomi-Dada. I prefer to go by Tessie. I am running for the position of Council 2022/2023. I am a first year in the Practical Nursing Program. I have spent the last year working in RDP Residence as a Resident Attendant and I also volunteer on RDP International's mentorship program. I want to serve you as the Councillor because like many other students, I am in a lot of circles in Red Deer Polytechnic, and I want to ensure that all your voices are heard and validated as a collective. I have a passion for change and progress, and I intend to learn and grow in this position. I want to learn how to represent you and highlight the diversity of the student body in doing so.

I will be an advocate for the student body, and I intend to enact positive change in Red Deer Polytechnic in a way that features the student body playing an active role in the future of Red Deer Polytechnic.

I care deeply about the growth and progress of Red Deer Polytechnic's student body as a whole and having worked with RDP International and Residence, I have learnt so much and I would be honoured to serve in a greater capacity, and I am confident that I have the appropriate tools and skill set to excel in this position. RDP is a close-knit institution with community at the core of its values. I will bring this attitude to the Councillor position as well.

I will continue to work with international and spread out into other groups in the student body to help ensure that Red Deer Polytechnic is an institution that values its students and tables their concerns accordingly. I want to aid in fostering a safe community where we can all have the opportunity to grow. I implore you will give me the chance to serve and grow with you so that we can continue to see positive change in our community. I will work with you, the student body so that we can push forward together and enact the progress you want to see. I hope you will allow me to serve you so we can create a memorable college experience together.
